

New Member Referrals

As a member of the U.S. Faster Payments Council, you are at the forefront of a movement to ensure all Americans have access to safe, efficient and ubiquitous faster payments. Would any of your professional colleagues or business contacts be interested in joining us? As an inclusive organization that encourages diverse perspectives across payments stakeholders, the FPC is always looking for new members, including financial institutions, payment network operators, technology providers, consumer organizations, businesses and those with a professional interest in improving the payment system.

Please indicate below any colleagues and business contacts whom you believe are good prospects for joining the FPC. The FPC will reach out with a brief, introductory email to gauge their interest in learning more. Your anonymity in this referral will be preserved, unless you indicate otherwise.
